ARANY SPA PHILOSOPHY

The named Arany is derived from the Hungarian word for gold. Dealing with gold has always involved strong emotions, with its beauty, rarity and timelessness creating an irresistible attraction.

In former times, to serve the nobility and aristocracy, many cultures developed fine goldsmithery, and towards the end of the seventeenth century Vienna became the center of such craft. Around 1750, Anton Domanek created the "Goldene Nachtzeug" (breakfast and toilet set) for Maria Theresa of Austria, the reigning archduchess of Austria and the queen of Hungary. The "Goldene Nachtzeug" is known as one of the most important works of the period.

This history inspired Arany Spa to use only the highest quality materials, including gold tiles, precious stones and mother of pearl, with the spa's philosophy embodying an exceptional sensory experience, an interaction of fragrances and flavors, unique ingredients, treatment techniques and music.
