## The Traveller's Palm

Raffles Hotels & Resorts' culture of gracious hospitality and heartfelt service is embodied in its icon – The Traveller's Palm.

Folklore tells that this spectacular native of Madagascar drew in thankful travellers of old; water stored in the base of its leaves quenched their thirst, and the orientation of the leaves in an East-West direction provided an informal compass to guide them home.

Today's global travellers find a more refined form of sustenance on their journey by following this icon to Raffles hotels and resorts, where each employee wears a Traveller's Palm-design pin. It is an assurance to our guests that they have found their way home.
